Ideas

Home Learning Activities for the Week

What is the activity about?

Use our timetable below to fill out what tasks your child needs to do for the day. Print and reuse.

Setting a Routine

Check out our example of a daily routine to support homeschooling.

Tip: Have a learning space, so your child has a dedicated area to learn.

9am: Children to be ready to start homeschooling on time.

9:30am: Check what tasks are set up by the teacher in EducationCity. If it is a Learn Screen, why not do it together? It's a great way to learn a topic and boost motivation!

10am: Break

10:30am: Encourage your child to work through the set tasks for another hour.

12pm: Lunchtime

1pm: How are they getting on? We have many Activities and Games on EducationCity they can do!

2pm: Another break. It's always good to get some fresh air so maybe a walk or in the garden?

2.30pm: See how your child is getting on with their set tasks and if they have completed them, it's time to send them back to the teacher!

About EducationCity

EducationCity produces fun, educational materials to engage students in learning and empower teachers to tailor their teaching. **Take a look at how EducationCity can support you in the classroom:**

Target Lesson Objectives Easily

Find relevant content that links to your curriculum by using our Curriculum Map or Search tool.

Comprehensive and clearly organised by strand, content is so easy to access!

Plan in Advance

When planning your lessons, choose your Activities in advance and put them into a MyCity, so they're easy for students to access. Choose a meaningful name for each MyCity, and you'll be able to update and retrieve them year after year!

Differentiated Teaching

Monitor progress with SuccessTracker and you'll be able to identify the strengths and areas of development for each of your students and so choose relevant activities to help them progress.

Flexible Learning

EducationCity is accessible via desktops, laptops, tablets and whiteboards, so can support you whatever equipment is available in your classroom.

Additional Resources

Access our ready-made Lesson Plans and topical content to support teaching and learning in the classroom.

There's more to EducationCity than Activities alone!

Assessment

Check students' learning with formative, summative and unit assessments. Curriculum-correlated, pre-prepared and easy to set, they give instant feedback to inform your next steps.

"Teachers have been delighted with the content of this package and most impressed with how easy it is to find appropriate learning and teaching resources and then to use them in a variety of ways."

Mark Sanderson,

Senior ICT Consultant, Herefordshire Learning and Achievement Service
